Miracle shared by devotee in Mahadeeksha level 1 at GC-2

I recently had been to India and took the Level 1 Mahadeeksha (in hindifrom 19th May to 24th May). We had two beautiful darshans of Bhagavan at Oneness temple. This was a 5.5 days course for Indian devotees. I enjoyed each moment in this course. On the final day, we had a Havan (Homa) and we had been blessed with Bhagavan's padukas. Gifted with the power of Deeksha to give others oneness blessing also. After this ritual, we were told to take a small break. Everyone stood and started leaving the dhyana mandir( class room for meditating). At this point, I was just standing up and saw some people crowded around the life size photo of Amma Bhagavan which is called as Srimurthy. I asked some one what happened. He replied there is some light on the Srimurthy. I was trying to see and found a golden light was emerging from the eyebrow location of Amma. It was half inch thick and in the shape of a Plus sign, right at the eyebrow centre. This light emerged for 3-4 minutes continuously and then stopped. After this, golden light in different shape appeared from Bhagavan's eyebrow. This also stayed about 3 minutes. Around 30 people witnessed this physical miracle. We were blessed to see this miracle. Thanked Amma Bhagavan for wonderful miracle. We wish these miracles should happen from every Srimurthy in the near future. Thanks and Pranamams to Amma Bhagavan.

Always at Lotus feet of Amma Bhagavan
