

Maha Deeksha level-01

If you have attended the Maha Deeksha level-01, then...

If you have attended the Maha Deeksha level-01, then know how the inner world is the core factor to determine the external world. Bhagvan says, four factors determines the inner strength of a person

- 1.) Past Karma Vasana's
- 2.) Four basket experince - which is when the child was in mothers womb
- 3.) Fundamental Child wood decisions
- 4.) later day conditioning

The above factors are considered to be the blue print of a person's life. As most of us all, think to earn money and want to lead a successful life, but all our efforts futile due to the negative emotions we have registered on the above stages.

Now Bhagvan says, these negative emotions can be set right, if we follow the below process

- 1.) Seeing your inner discussions and the kind of thoughts flowing into you
- 2.) See what is their in the inner world and how are reacting on a outer world. For example in your inner world you don't like to help to a person, but on a outer world you speak to them like a true friend. In Bhagvathdharma, this is called as Inner Interigity, which is seeing the inner truth of yourself
- 3.) Accepting whatever and whoever you are.
